

TISSUE BOX CAR WASH

What you need:

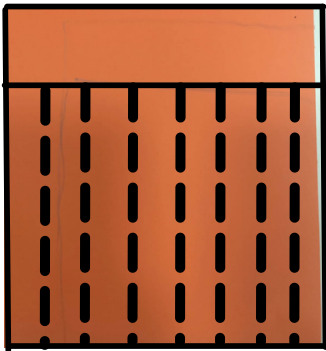

- Tissue box
- Paper
- Glue/sticky tape
- Pencils/textas
- Scissors

What to do:

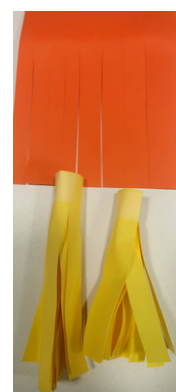

1. Cut the short sides off the tissue box. This will be the entry/exit to the car wash. Then decorate the outside of the box.

2. On a piece of paper, draw around the square opening, and add a couple of extra centimetres to the top. See the image below. Cut this square out, and then cut along the dotted lines to make a fringe. Stop cutting before you reach the end. Stick this to one end of the box.

3. Cut a piece of paper in half. Cut a fringe along both pieces of paper, leaving a couple of centimeters along the top. Roll up both pieces and stick the end down. These are the brushes that clean the car!

4. Stick the brushes to the top inside the box. You may need to trim the ends so they fit inside.

5. Now the car wash is finished! Line up your cars and drive them through.
