

Fork Painted Flower Card

What you need:

- Colored paper
- Scissors
- Glue
- Pant
- Disposable fork
- Glitter or glitter glue
- Pencils

What to do:

- Fold one piece of paper in half.
- Cut a large rectangle out of another piece of paper, slightly smaller than your folded paper.
- Glue that rectangle onto your folded paper.
- Dip the fork in to paint, and press it down onto your rectangle, anywhere you would like a flower to be.
I moved the fork slightly to create the base of the flower.
- Repeat to create as many flowers as you like, try it with different colours.
- Dip the fork into green paint and start creating grass, stems and leaves for your flowers.
- using the same process create a sun at the top (optional).
- Using your glitter or glitter glue sprinkle glitter onto the flowers while the paint is wet.
- Leave it to dry.
- Once dry you can write and draw inside your card.
