

# Paper Pterodactyl

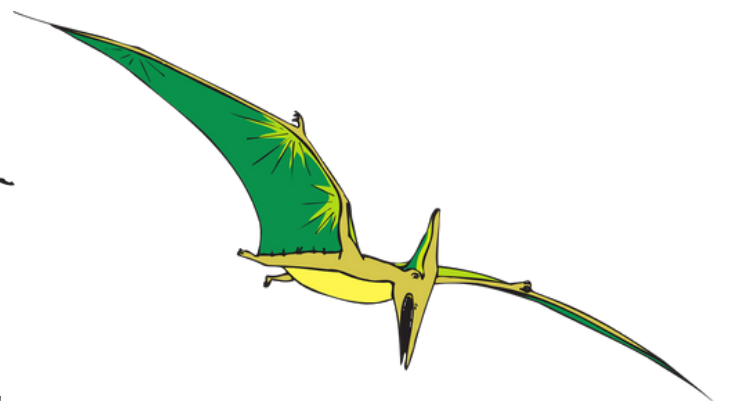

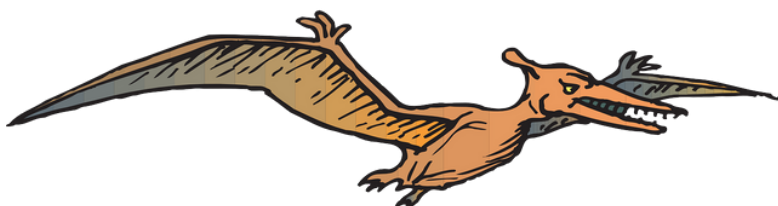

## What you need:

- Paper
- Paper roll
- Scissors
- Glue/sticky tape
- String
- Pencils/texta

## What to do:

1. To make the body of the pterodactyl, colour in the paper roll, or cover it in with paper. If you don't have a paper roll, you can roll up a piece of paper. What colour will your pterodactyl be?
2. Draw a head with a long neck on paper. Cut this out and stick the neck inside one end of the body.
3. Draw wings on paper. Cut these out and stick these onto the body.
4. Draw a tail, cut out and stick onto the body.
5. Cut a long piece of string. Thread this through the body of the pterodactyl. Hang your pterodactyl up to admire!
