

Hand Print Flower

What you need:

- Paper of both A4 and larger size
- Scissors
- Glue
- Pencils/textas

What to do:

- On a white piece of paper, trace your hand and then cut it out. Repeat this a few times until you have between 6-8 hands. You may need a few pieces of paper.
- Colour in each hand with different colours and designs.
- On another piece of paper, draw and cut out the stem of your flower.
- On your larger piece of paper, glue down the stem.
- Draw a circle and colour it in at the top of your stem. This will be the centre of your flower.
- Start gluing your hands down around the circle.
- Each different flower represents all the differences in everyone around you, but also shows that we are the same. Same shape different designs.
