

Snowball Painting

What you need:

- Paper
- Paint
- Cotton balls
- Pencils or textas

What to do:

- Dip the cotton ball into the paint and dab it on the paper, think of a design you would like to make.
- We make a snowman by creating 3 circles, 1 on top of each other. To do this you start dabbing the cotton ball on the paper to create a large circle shape at the bottom of the page.
- Then another smaller circle on top. An even smaller circle for the head.
- You may have to replace the cotton ball if it becomes too wet and sticky.
- Continue dabbing with the cotton ball around your snowman to create snow falling.
- Once the paint is dry, draw on eyes, nose, mouth and arms.
