

Friendship Tree

Kids Club Online

What you need:

- Paper
- Pencils/textas/paint

What to do:

1. For the friendship tree, each tree branch will have a handprint from a friend or family member.
2. Using a large piece of paper (or paper stuck together to make a large piece), draw a tree trunk with branches.
3. Get your friends and family members to draw their handprint at the end of a branch. You can draw and colour the handprints, or if you want to get messy, paint your handprint! Write everyone's name next to their handprint and colour it their favourite colour.

Show us what you have made on the [Kids Club Online Gallery](#).
