

Kids Club Online Minecraft Ship Building Challenge

Are you up for Minecraft building challenge?

Do you have the skills to build a ship or a boat?

Then, let's get started.

Don't forget to take a screenshot and share your creation on the [Kids Club Online Gallery](#).

Will it look like a fairy tale or be historically accurate?

Will it stand tall or be a small rowboat or raft?

Will there be sailors on board?

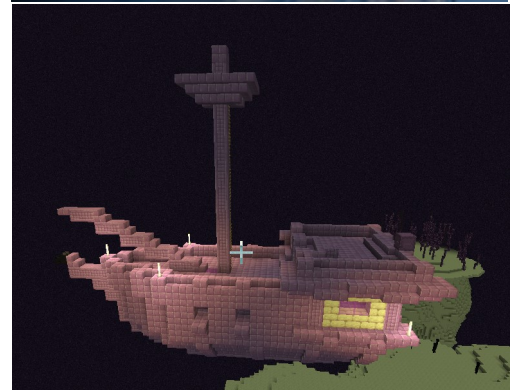

Will there be a harbour or a lighthouse?

So what parts of the ship should I include in my build?

A ship consists of a mizzen mast, a quarterdeck, a rudder, a mainsail, gunports, a crows nest, a keel, a hull and of course, an anchor.

If you are not sure where to start, try searching "Minecraft ship ideas" online.

Check out the next page for images to inspire you.
