

Doctor Who decoration ideas

Are you looking around your room wishing it looked more like a Doctor Who episode?

Well, here are a few ideas you might like to use to lift your décor and make it a little more Timelord!

- Embrace the colours of the TARDIS. Blue, black and white. Embrace the red of a fez or 3D glasses. Think curtains, doona covers, rugs, cushions, figurines, notebooks, scarves, pens, clothing or art work.

- Create a Doctor Who display with books, figurines and other collectables.

Print out pictures from the internet, use books, sonic screwdrivers, figurines or items that remind you of the books or the tv series.

- Use Doctor Who inspired artwork. You might like to put up posters, cards or stickers created by other people or even create your own art work.

You might even choose a Dalek or TARDIS motif.

- Light up your room. Choose Doctor Who inspired lava or plasma lamps, strings of coloured bulbs or fairy lights. Put star stickers that glow in the dark on your ceiling or walls, to accompany you as you travel through time and space.
