

Lego Survivor Island

You are marooned on a desert island.

Challenges:

Build a shelter

Create a food source

Make something to help you escape the island

Stress Test:

Will your shelter survive gale force winds?

Use a fan or hair dryer to find out.

If you've made a boat, how will it fare in stormy sea conditions?

Put it in the bath or sink and make some waves.

Show us what you have made on the [Kids Creations Gallery](#).
