

Paper Pokemon

What you need:

- Two copies of a Pokemon image
- Pencils/textas
- Stapler
- Scissors
- Something to use as stuffing, like tissues, ripped up paper or cotton balls

What to do:

1. You will need two copies of a Pokemon image. You can print two copies of Pikachu in this document or draw your own.
2. Colour in the Pokemon.
3. Cut them out.
4. Staple around the edges of the Pokemon, leaving a gap. Fill this gap with the stuffing. When you are happy with your Pokemon's squishness, you can staple the hole closed.

Show us what you have made on the [Kids Creations Gallery](#).
