

PHOTOGRAPHS WITH LEGO

If you have any Lego at home, you can use the Lego figurines or sets to create scenes either inside the house or out in the garden. Then you can photograph them.

You might even take a series of photos to tell a story. Use some of the photos here as an inspiration. You might even get other toys to interact with the Lego.

Use the garden locations to create a real backdrop for the Lego. Get in close with your camera and make the minifigs look larger than they really are.
