

Paper Roll Dragon

What you need:

- Paper roll
- Coloured paper or white paper
- Colour pencils/textas
- Scissors
- Glue/sticky tape

What to do:

1. You can use a paper roll for the body of the dragon, or roll up paper and tape the edges together.
2. On paper, draw the dragon's face. I added a mane of hair onto mine. Cut the head out and stick onto the body.
3. Draw a tail on paper and cut this out. I then drew spikes for the tail. I wanted the dragon's tail to have a lot of feathers on the end, so I cut these out and stuck the spikes onto the tail and the feathers I layered on the end of the tail.
4. Stick the finished tail onto the body.
