

Tissue Box Monster

What to do:

1. Have a think about what the monster will look like. I drew mine out on paper before I started cutting up the tissue box. I used the hole where the tissues come out of as the mouth, and removed the plastic. I cut out paper triangles for the teeth and stuck them around the mouth.
2. For the monster's body, cover the tissue box in paper or paint it. Wait for it to dry.
3. Now for the fun part! Decorate the monster! Add in eyes, nose, hair, arms, and other creepy looking body parts!

Show us what you have made on the [Kids Creations Gallery](#).
