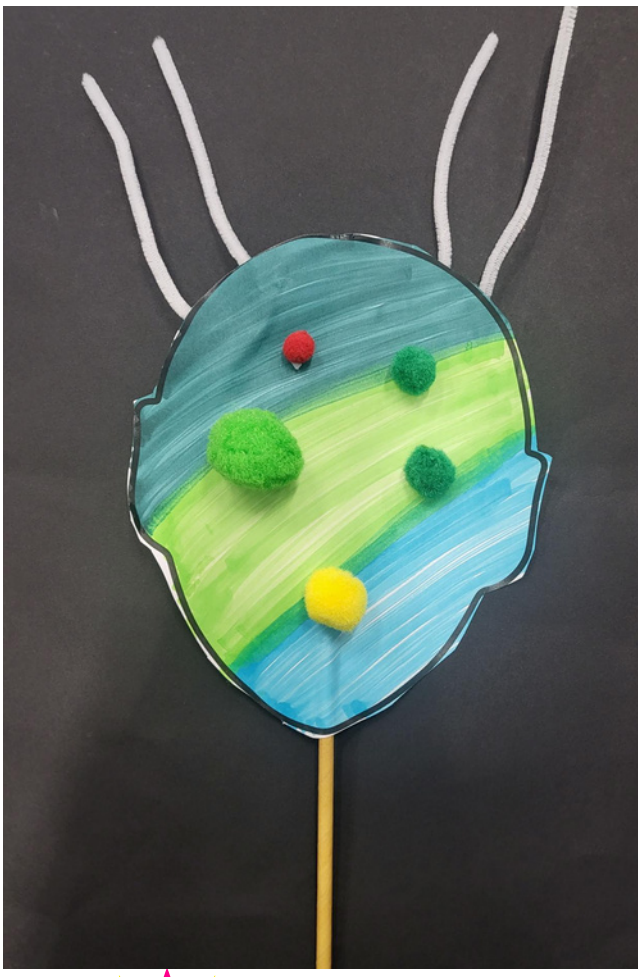
Alien Masks

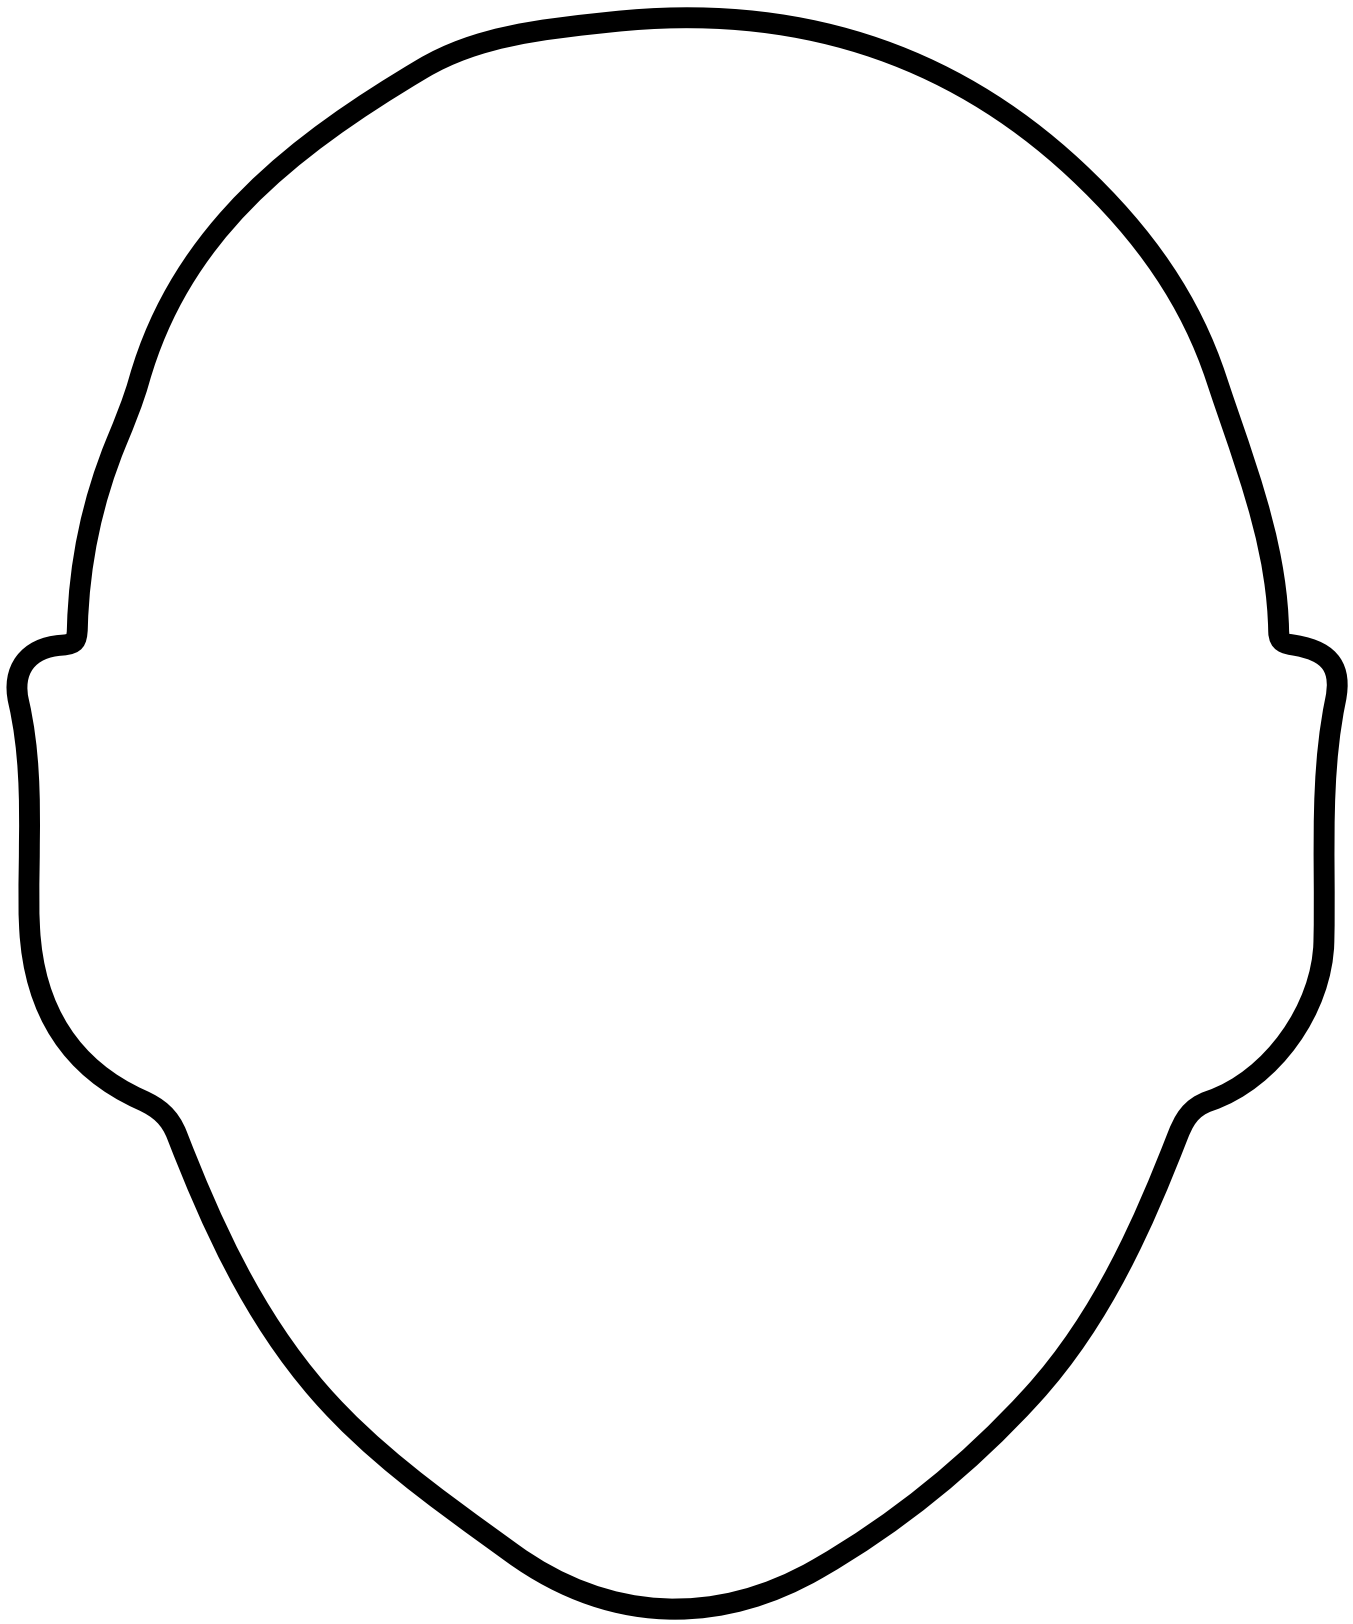
What you need:

- Cardstock
- Pencils/textas
- Things to decorate the mask with
- Glue
- Scissors
- Something to hold the mask with, like string or a craft stick

What to do:

1. You can print the mask template on the next pages onto cardstock or design your own. Then cut it out. Make sure you cut out holes for your eyes.
2. Colour in and decorate the mask. You can decorate it with things like sequins and feathers.
3. If you want to wear the mask, cut two holes near the ears, thread two pieces of string through and tie them to the mask. Tie the ends around the back of your head so the mask fits.
4. Or you can stick a craft stick to the bottom of the mask and hold it up to your face.





Show us what you have made on the Kids Creations Gallery.
