

# PAPER CHAIN JELLYFISH

## What you need:

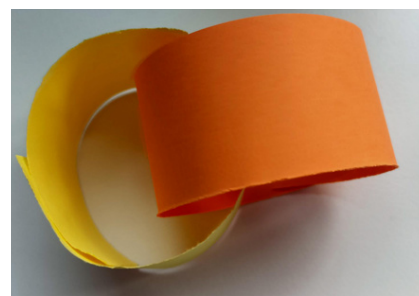

- Paper
- Scissors
- glue/sticky tape
- Pencils/textas

## What to do:

- Start by making the jellyfish head. Draw this on paper, colour in and cut out.

- Cut strips of paper for the paper chain. To make the chain, fold one strip into a circle and stick the ends together. Thread the second strip through the first and make another circle. Keep repeating this until you have a long tentacle.

- Make a few tentacles, and stick these to the bottom of the jellyfish.
