

Paper Plate Snowman

What you need:

- 2 paper plates
- Glue/tape
- Drawing supplies
- Ribbon
- Paper
- Scissors
- Cotton balls

What to do:

1. Cut the middle circle out of one of the paper plates. This will be the snowman's head and the other plate will be the body. Stick them together.
2. Draw on the eyes, mouth and carrot shaped nose. You can either draw these directly onto the plate or draw them on paper, colour in, cut out and stick onto the plate.
3. Add on buttons, a scarf and arms for your snowman. Make sure he is nice and warm!
4. If you want to make your snowman look three dimensional you can add cotton balls onto the body.
