

Pipe Cleaner Snowflakes

What you need:

- Pipe cleaners
- Beads (with a large hole so the pipe cleaner can fit through).

What to do:

1. Gather your supplies on a flat surface.
2. To make a large snowflake you will need four pipe cleaners. Twist them together in the middle like in the picture and move the pipe cleaners into a star shape.
3. Thread the beads onto each pipe cleaner and twist the ends up so the beads don't fall off. Make one of the ends into a loop so you can hang the snowflake up!
4. Take a photo and submit to the [Kids Club Online Gallery](#).
