

# HANGING PAPER FLOWER

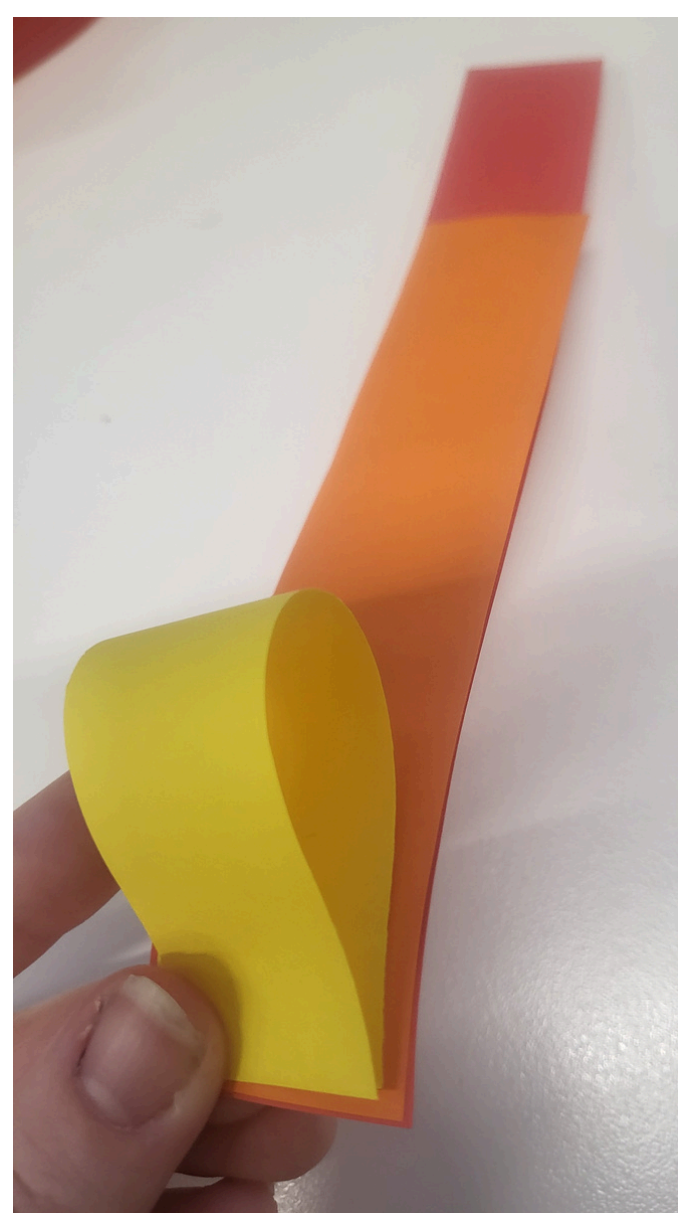

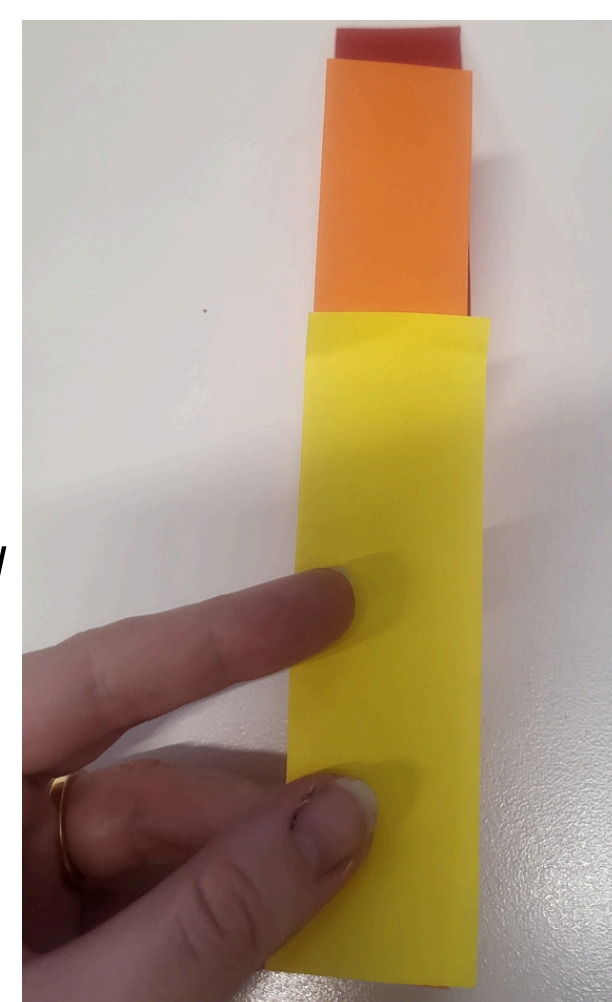

## What you need:

- Paper in 3 different colours
- Ribbon
- Scissors
- Sticky tape /glue
- Stapler
- Ruler

## What to do:

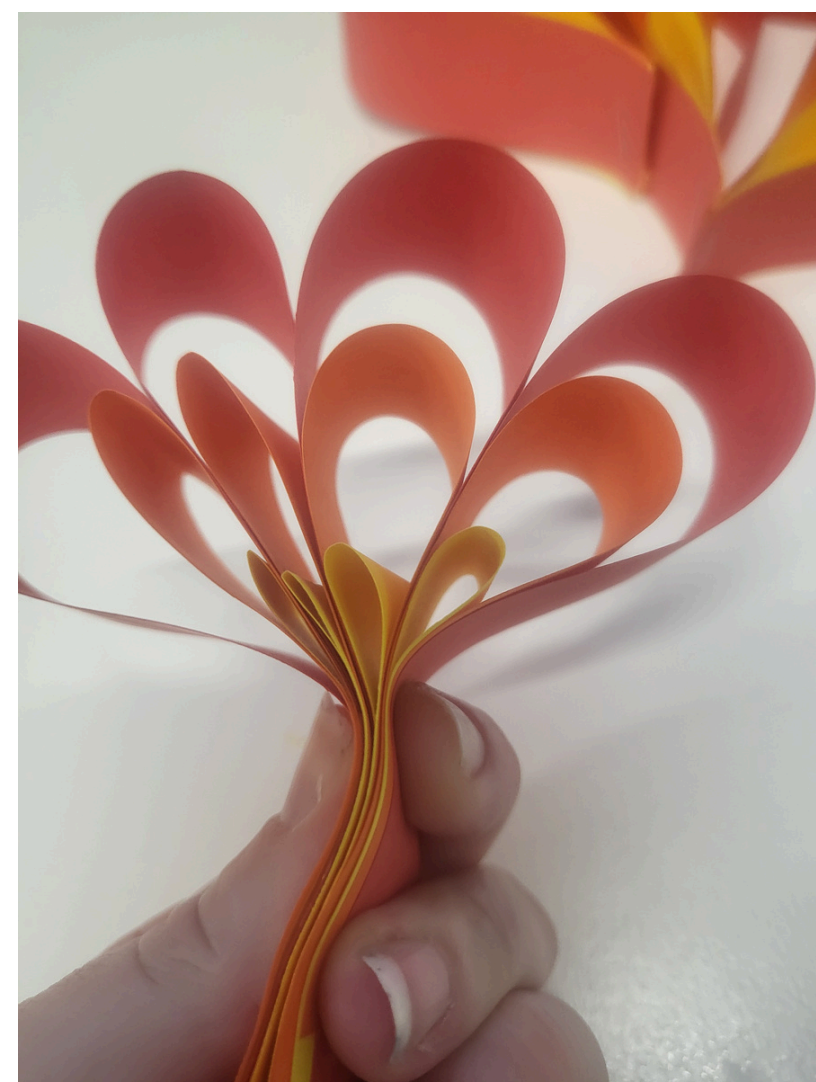

1. Measure and cut the following:
  - a. 8 red strips of paper 3cm x 21cm
  - b. 8 orange strips 3cm x 16cm
  - c. 8 yellow strips 3cm x 11cm
2. Line one of each colour up like in the picture: red with orange on top, then yellow on top.
3. Bend the paper strips into a curved petal shape like in the picture. Staple them together at the end.

4. Repeat this 8 times, so you have 8 petals.

5. Join 2 petals together using some glue or tape on the stapled end. Do this 4 times so 4 of the petals are joined together. Repeat this with the other 4 petals.

6. Join the two sides of the flower together. Then tie the ribbon on in a loop so you can hang the flower up.

You could make a few flowers and have them all hanging together.
