

Rainbow Paper Lollipop

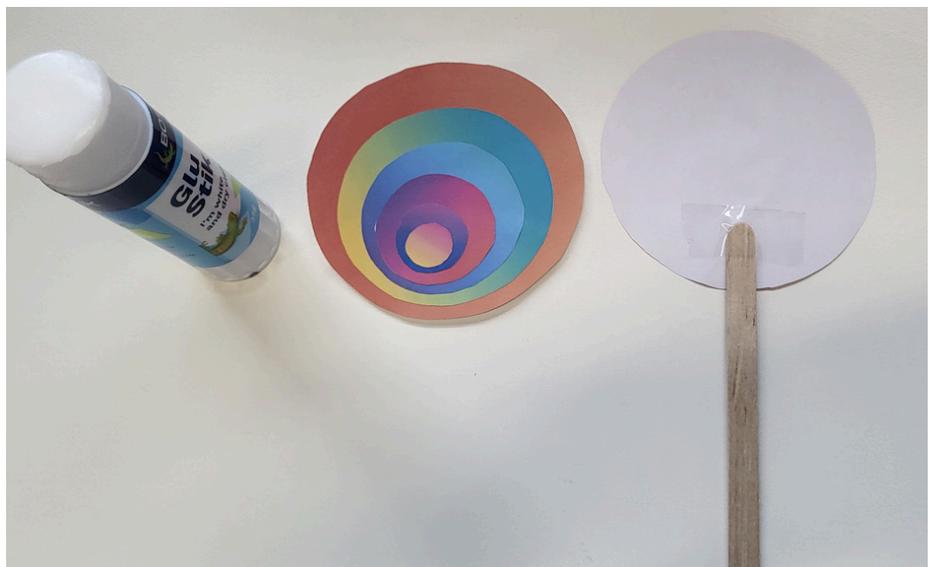

What you need:

- Paper
- Glue/tape
- Wood craft sticks

What to do:

1. You can print out the circles on the next page to make the lollipop, or you can draw your own. You will need different sized, colourful circles.
2. Cut the circles out and glue them together, like in the picture. Stick the wood craft stick to the other side and glue the second group of circles on to finish the lollipop.
3. If you do not have a craft stick, you can use a straw or even roll up paper to make the stick.

Show us what you have made on the [Kids Creations Gallery](#).
