

Origami Rabbit

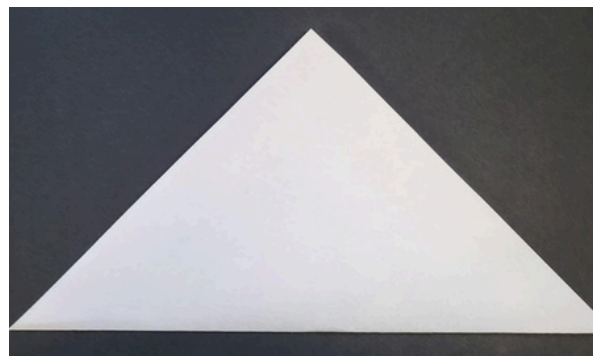

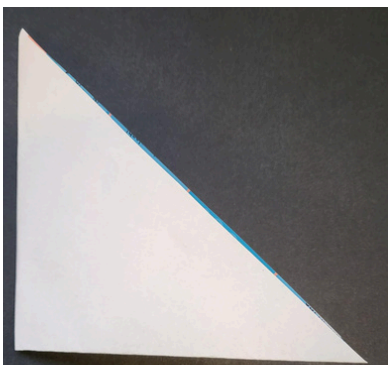

What to do:

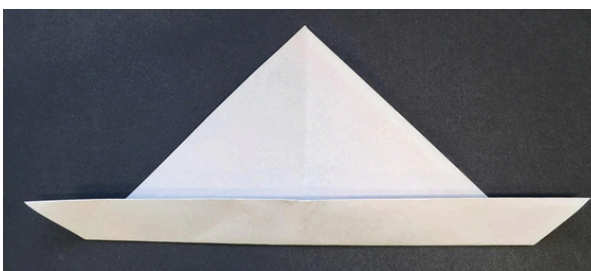

1. You will need a square piece of paper to make the rabbit. Start by folding the paper in half to make a triangle, so it looks like the picture.

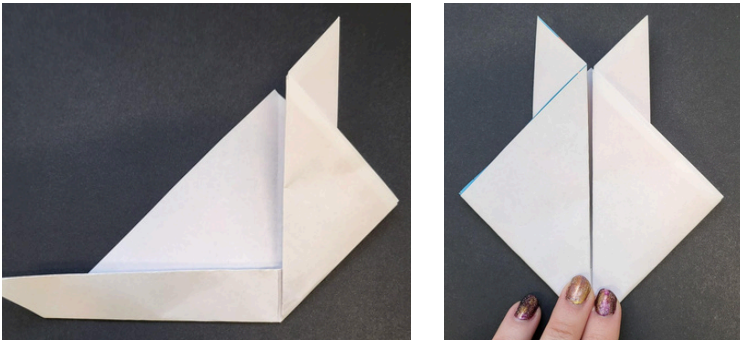

2. Fold the triangle in half again to make a crease, then unfold.

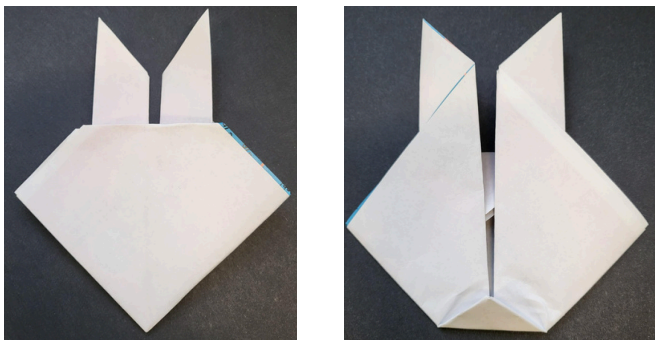

3. Fold the long bottom edge of the triangle up a few centimetres.

4. Using the crease you made in step 2, fold the bottom corners up to meet the middle crease. These are the ears. Turn the piece over.

5. Fold the top corner of the diamond down behind the piece to make the head. Fold the bottom corner behind.

6. Draw a face on the rabbit and colour it in.
