

CORNER BOOKMARK

This is a simple technique to make a bookmark that sits on the corner of your page.

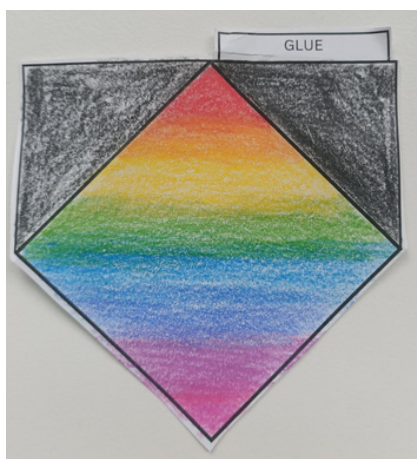

What you need:

- Paper
- Pencils/textas
- Scissors
- Glue or sticky tape
- Ruler

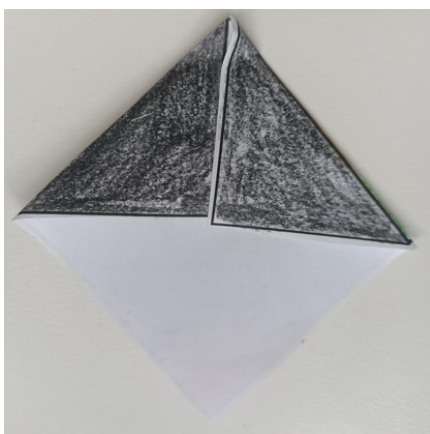

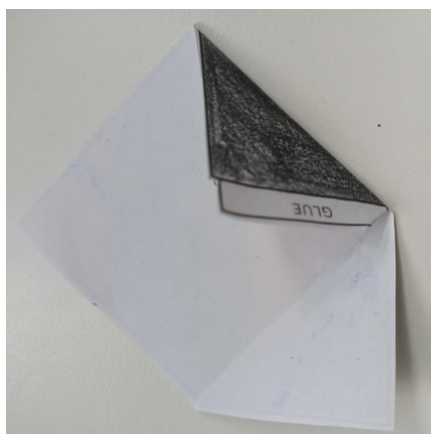

What to do:

1. Print out the bookmark template on the next page. Draw a design and colour it in.

2. Fold the two triangles down. Also fold the GLUE tab and glue it to close the two triangles together.
