

Corner bookmarks

What you need:

- Print out the bookmark template on the next page, or draw your own
- Pencils/textas
- Scissors
- Gluestick

What to do:

1. Choose what animal you will draw on the bookmark. I am making a crocodile and a kangaroo.
2. Colour in the bookmarks and cut them out. Using the leftover paper, you can add details by drawing eyes and sharp teeth for the crocodile and eyes and ears for the kangaroo.
3. Fold one triangle into the middle, then fold the second triangle and glue that one down.

Show us what you have made on the [Kids Creations Gallery](#).
