

Mini Sunflower Painting

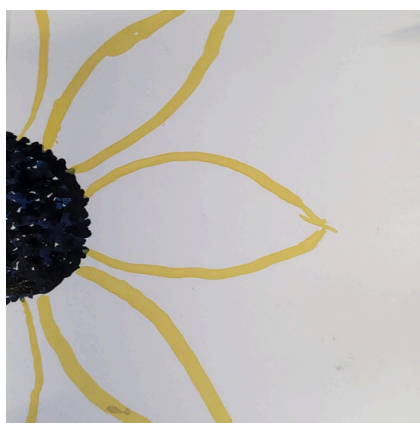

What to do:

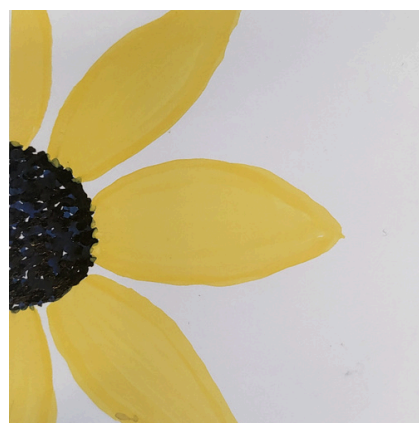

- Follow the pictures below to paint your own mini sunflower artwork! I used a small piece of thick paper cut into a square 9cmx9cm.
- I used acrylic paint markers for this, but you can use paint with a paint brush, or just normal markers.

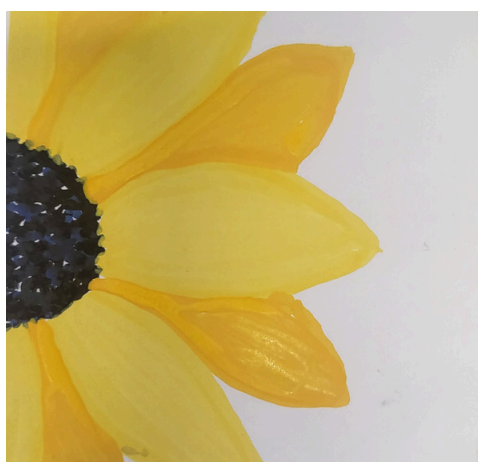

1. Paint the centre of the flower using lots of tiny dots. I used mostly black, and some grey and dark blue.

2. Using yellow, draw the petals.

3. Colour the petals in.

4. Fill in the gaps with more petals, using a darker yellow.

5. Colour the background in. Add detail to the petals using yellow, orange and white strokes.

Show us what you have made on the [Kids Creations Gallery](#).
